- Cuts Easily, Neatly and Maintains a Fray **Resistant End**
- **■** Expands For Ease Of Installation
- Cut And Abrasion Resistant
- Mil-202 & VW-1 **Approved**
- Halogen Free

## **Material**

**Polyethylene Terepthalate** 

Grade

CCF

**Monofilament Diameter** 

.008"

**Drawing Number** 

TF001CCF-WD

## Scissor Cut For Field Installation, **Will Not Support Combustion**

CLEAN CUT FR has all of the same qualities that make our standard CC so easy to cut and install, with the added advantage of a flame inhibitor to provide an extra level of safety in certain applications.

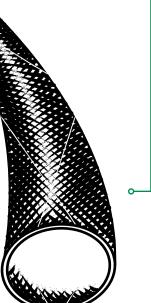

Under normal conditions, Clean Cut FR will quickly self-extinguish and minimize flame spread and incidental damage to surrounding components.

The combination of flame retardance, ease of installation and nearly complete coverage makes CC an ideal solution for many industrial and engineering applications.

Cuts easily and neatly with regular scissors and maintains a fray resistant end during installation. When scissor cut, the end of CC will withstand heavier handling without fraying than standard PT.
